...

Someone has fraudulently listed my home for rent online. This is a scam, and I want to warn others before anyone loses money. My home is **NOT for rent**—if you see a listing for it, please know it is fake.

A scammer is trying to collect deposits from unsuspecting renters. If you've been in contact with anyone about renting this property, **do not send them any money** and report the listing immediately.

Here's the fraudulent listing: <https://www.apartments.com/1670-delphi-dr-charlottesville-va/lcj46tf/>

I've already flagged this listing and contacted the authorities, but please share this to prevent others from being scammed.
